

## **Candel Therapeutics to Present at Upcoming Jefferies Virtual Healthcare Conference**

**May 27, 2021**

**NEEDHAM, Mass. --(BUSINESS WIRE)--** Candel Therapeutics, Inc., a late clinical stage biopharmaceutical company developing novel oncolytic viral immunotherapies, today announced that Paul Peter Tak, M.D. Ph.D., President and Chief Executive Officer, will present an overview of the Company at the upcoming Jefferies Virtual Healthcare Conference on Friday, June 4, 2021 at 1:30 PM ET.

### **About Candel Therapeutics**

Candel is a late clinical stage biopharmaceutical company focused on helping patients fight cancer with oncolytic viral immunotherapies. Our engineered viruses are designed to induce immunogenic cell death through direct viral-mediated cytotoxicity in cancer cells, thus releasing tumor neo-antigens and creating a pro-inflammatory microenvironment at the site of injection. Our approach combines an in-depth knowledge of viral immunotherapy with extensive clinical experience across a wide range of indications. Based on the broad range of data that we have generated from our preclinical models and clinical trials using our approach, we have observed what we believe to be a systemic immune response against locally injected tumors and their distant metastases.
